CamelBak® MultiBev vacuum insulated stainless steel 500 ml bottle and 350 ml cup

SKU: TP2100716
Categorie:

The ultimate beverage multi-tasker for on-the-go sustainability and versatility. The MultiBev is a 2-in-1 vessel that serves as both a sports bottle and detachable travel cup. Use for coffee in the morning, water throughout the day, and camp-out beers with friends at night. Drink. Share. Rinse and repeat. The double-walled vacuum insulated stainless steel construction keeps beverages hot or cold for hours. A powder coat finish and non-slip silicone base create a highly durable exterior. The leak-proof Pak™ cap tucks the roll and fold lid neatly out of sight until paired with the removable cup, or stores small essentials like a tea bag or snacks. Easy-to-clean. BPA-, BPS-, and BPF-free.
