VINGA Kaiser Fillet Set

SKU: TP1V1601
Categorie: Home and kitchen

Fish filetting set comprising filleting knife, steel-mesh glove and metal soap. The glove provides extra grip on the fish while protecting you from any mishaps. The metal soap removes odours such as fish and onions that other soaps find hard to shift. The knife is made of X50CrMoV15 German steel with a Pakkawood handle. The easy-grip handle and superb balance in the blade makes the knife comfortable and easy to work with. Size: 21 cm blade.
