Aervia recycled plastic portable fan

SKU: TP2124519

Categorie: Outdoor

Made from recycled plastic, this portable mini fan features three cooling speeds in a compact, travel-friendly design. Ideal for outdoor events, clubs, festivals or hot, humid conditions, it provides quick and convenient cooling on the move, making it a practical summer essential for everyday use and travel. The fan operates for 3 hours (low), 2 hours (middle), or 1.2 hours (high). The battery is rechargeable with the included USB-A to USB-C charging cable, and can be charged from 0 to 100% in 2 hours.
