

Arc RCS recycled Ultra-thin 60W 2 in 1 magnetic cable

SKU: TP1P302.9101

Category: Technology

Arc is a magnetic charging cable designed for powerful performance and everyday convenience. Supporting up to 60W power delivery, the cable is suitable for fast charging a wide range of devices, including laptops, tablets and mobile devices. Arc features a USB-C input and output option, along with an additional Lightning connector output, providing maximum compatibility across devices. The built-in magnets are designed to be extra strong, keeping the cable perfectly aligned and neatly rolled up, while using high-quality materials that resist rust over time for long-lasting reliability. The cable supports USB 2.0 data transfer speeds up to 480 MBPS and is compatible with Apple CarPlay and Android Auto for seamless connectivity on the go. Made with RCS (Recycled Claim Standard) certified recycled PET, recycled TPE, recycled copper and recycled aluminum. The total recycled content is 25% based on the total item weight. PVC free and packed in plastic-free FSC packaging.
