Avior RCS recycled plastic emergency radio

SKU: TP2124514

Category: Outdoor

Stay prepared with the versatile Avior RCS recycled plastic emergency radio, designed to keep you connected and powered when it matters most. This compact multi-function device features AM/FM radio, a solar panel, integrated 1W torch, USB output and USB-C input. The built-in 1200mAh battery can provide emergency phone charging, while the hand-crank generator delivers dependable backup power - one minute of cranking supports around five minutes of radio or 30 minutes of torch use. When fully charged, Avior provides up to 15 hours of radio playback or eight hours of torch light, making it a reliable addition to emergency kits or travel gear.
