

Bike finder Dual RCS bike bell with worldwide locating

SKU: TP1P301.14

Category: Technology

Never lose your bike again with the Bike Finder, a discreet bike bell featuring integrated locating technology that works seamlessly with both Apple's Find My and Android Find Hub, making it suitable for a wide range of users. With Bike Finder, you'll receive an instant notification if your bike is left behind, and if it becomes completely lost, you can easily locate it anywhere in the world using the supported networks. Once you're nearby, you can activate a sound to pinpoint its exact position. Bike Finder is powered by long-lasting batteries that provide up to 12 months of use before replacement and is IPX5 waterproof for reliable performance in all weather conditions. Combining safety and locating functionality, Bike Finder ensures your bike is always within reach. Packed in FSC® mix gift packaging.
