

BOSKA Pizza Oven Pro Pellet

SKU: TP1RB32050

Categorie:

Disponibilitate: Stoc epuizat

Want to make brick oven-style pizza at home? The Pizza Oven Pro Pellet, from the brand BOSKA - a B Corporation certified company - brings that authentic flavour and texture right to your backyard. Heating up to 400°C, it delivers the perfect balance of high heat and wood-fired taste—crispy crust on the outside, soft and airy inside. The pizza stone and air chamber are expertly balanced to mimic a traditional brick oven, while second combustion technology boosts flame power and heat efficiency by burning wood gases with added oxygen. This compact pizza oven fits pizzas up to 30 cm and features a multifunctional handle and easy pellet refill system—just one scoop is enough for two pizzas. All removable parts store neatly inside the combustion chamber for easy storage. Get ready for authentic, wood-fired pizza—fast, efficient, and full of flavour. The pizza oven is handwash only, and backed by a lifetime guarantee.
