

Gear X RCS rPlastic head torch with motion sensor

SKU: TP1P518.0501

Category: Car tools and accessories

This head torch delivers reliable illumination and hands-free convenience in any situation. Equipped with a motion sensor, it can be activated or switched off with a simple wave of your hand, ideal when your hands are occupied or when wearing gloves. Featuring two high-quality XTE LED lights, it delivers 500 lumen output with a beam distance of up to 70 meters and offers 5 light modes for different environments and activities. The built-in 800 mAh rechargeable battery provides up to 4 hours of operating time and can be easily recharged via USB-C. Designed to easily replace the battery according to EU regulation 2023/1542. The adjustable elastic headband ensures a comfortable fit and can be worn on the head or around a helmet. Made with 33% RCS (Recycled Claim Standard) certified recycled ABS based on total item weight. Item and accessories are PVC free and packed in plastic-free gift packaging.
