

IQONIQ Thelon recycled polyester parka

SKU: TP1T9702

Categorie: Clothing

Unisex padded waterproof parka, made from 100% recycled polyester. The jacket is 4.000 mm waterproof, breathable and wind resistant. It has all features of a classic parka: longer back length, back slit, 2-way CF reversed zipper, covered by an extra front placket with four hidden snaps, clean sleeve cuffs with an extra inside half cuff, hood with stoppers at inside collar, horizontal deco seams. It is padded with 100% recycled polyester sheets and is lined with fine taffeta. On the inside there is a hidden zip at bottom hem and left wearer's chest for easy decoration. Full garment is stitched with recycled polyester sewing thread. At back neck there is a tear-off size label with an iqonIQ craft hangtag, care label at the left inside side seam. The use of genuine recycled fabric material and environmental impact claims are guaranteed, by using the AWARE™ disruptive physical tracer and blockchain technology. By scanning the QR code, you will gain access to a dedicated digital passport.
