Nomad GRS recycled hydration crossbody bag 6L

SKU: TP2130101

Categorie: Sports and leisure

The Nomad hydration crossbody bag is made from GRS certified recycled ripstop fabric with a water-repellent finish, GRS certified RPET lining, and reflective elements. It is designed for fast hikes, trail runs, festivals, or any activity where you need to carry water and essential items without extra bulk. The bag includes a zipped main compartment with an inner sleeve pocket, a mesh front pocket with an elastic drawstring to hold a water bottle securely, and a large quick-access pocket on the back for your phone or other small items. The adjustable strap and breathable mesh back provide carrying comfort. Volume capacity: 6 litres.
