Nomad GRS recycled running waist pack

SKU: TP2130102

Categorie: Sports and leisure

The Nomad running waist pack is made from GRS certified recycled ripstop fabric with a water-repellent finish, GRS certified RPET lining, and reflective elements. It is a compact and lightweight solution for running, hiking, or other outdoor activities. The waist pack features three zipped pockets to keep your phone, earbuds, keys, and other items organised and separate. Reflective details improve visibility during early morning or evening use. The back is made with lightweight, moisture-wicking mesh to increase airflow and reduce sweat build-up. An adjustable, elastic waistband ensures a secure and comfortable fit during movement.
