

Pedalfinder bike bell with worldwide locating

SKU: TP1P301.6101

Categorie: Technology

Disponibilitate: În stoc (3800)

Never lose your bike again with the Pedal Finder, a bike bell featuring integrated Find My technology that works seamlessly with Apple's Find My network. With Pedal Finder, you'll receive an instant notification if your bike is left behind. If it's lost, you can easily track it anywhere in the world using Apple's Find My network, and once you're nearby, simply activate a sound to locate it precisely. The Pedal Finder is powered by a set of long-lasting batteries that provide up to 12 months of use before needing a replacement. Designed for durability, it's also IPX5 waterproof, so you can rely on it in all weather conditions. Combining safety and tracking functionality, Pedal Finder ensures that your bike is always within reach, offering peace of mind and convenience for every rider. Packed in FSC® mix gift packaging.
