Porter 500 g/m² Aware™ recycled duffel bag 50L

SKU: TP212074790

Categorie: Bags and travel

The Porter duffel bag made of 500 g/m² recycled cotton and recycled polyester comes with a spacious main compartment for optimal storage of larger items and a small front slip pocket to store small items such as a passport or phone. The duffel can be carried by the 2 short handles, or by the expandable and detachable shoulder strap that can be adjusted for maximum comfort. The duffel bag incorporates Cyclo® recycled fibres where they use pre-sorted waste that determines the colour of the yarn. These fibres do not only reduce the demand for virgin resources but also exhibit a commitment to a circular life, embodying the essence of reducing waste and promoting a closed-loop system. Each bag also comes with an Aware™ tracer. This innovative feature allows users to trace the origins and journey of their item through a QR code, enhancing transparency in the supply chain and fostering a stronger connection between the product and its production process.

Volume capacity: 50 litres.
