

Roam GRS recycled modular sling bag

SKU: TP2120715

Categorie: Bags and travel

The Roam modular sling bag is the ultimate companion for urban exploration and outdoor adventures. This bag comes with features such as double-sided zippers, front pocket with mesh compartments, adjustable water pocket, dividers in main compartment, and a detachable waterproof pouch. Made with high quality GRS certified recycled polyester, and designed for the modern-day adventurer, the Roam modular sling bag combines durability, functionality and style. It is great to use on its own, but it's also very compatible to combine with and attach to the Roam modular backpack.
