

SCX.design C32 60W switch charging cable with light-up logo

SKU: TP22PX212

Category: Technology

This 1-metre, 60W super fast charging cable features a light-up logo with a switch button to turn off the light for more comfortable use at night, making it ideal for bedrooms or cars. Designed for data transfer with Apple CarPlay and Android Auto, it offers Type-C and Lightning outputs, along with dual USB-A and USB-C inputs for universal compatibility, including the latest MacBook models. The cable is made from recycled ABS/PET plastic and aluminium, and it includes soft-touch rubber on one end, and satin-finished recycled plastic on the other end. Packed in a recyclable TPU pouch with a recycled cardboard backing.
