Thule Paramount Backpack 20L

SKU: TP1RB320566

Category: Bags and travel

The Thule Paramount 20L bike backpack combines a modern design with practical functionality for everyday commuting. Its roll-top closure helps protect your belongings from the elements and allows extra space when needed. Inside, a padded compartment fits laptops up to 16 inches, along with a separate sleeve for tablets up to 11 inches. A side pocket provides quick access to your phone, while the organiser keeps smaller essentials in place. The backpack includes a side pocket for a water bottle and a front bungee cord for securing a helmet. Reflective details and a bike light loop improve visibility in low-light conditions. Designed for comfort, it features adjustable shoulder straps, a breathable back panel, and a removable hip belt. Made with durable YKK zips, strong nylon, and a PFC-free water-repellent finish, it's built for daily city use.
