The X3 GRS Certified Recycled PC Plastic Pen Frosted combines sustainability with functionality. Made from 84% recycled GRS-certified PC plastic, including the top, clip, tip, and barrel with a frosted coating, this pen is designed for both eco-consciousness and style. It features blue Dokumental ink that writes smoothly for up to 1200 metres with a 1.0mm writing width. The click mechanism provides easy operation, while the RPC recycle logo under the plunger signifies its sustainable origins.
